

Installation of Thermocoil Fan Coils at Bounce, Battersea

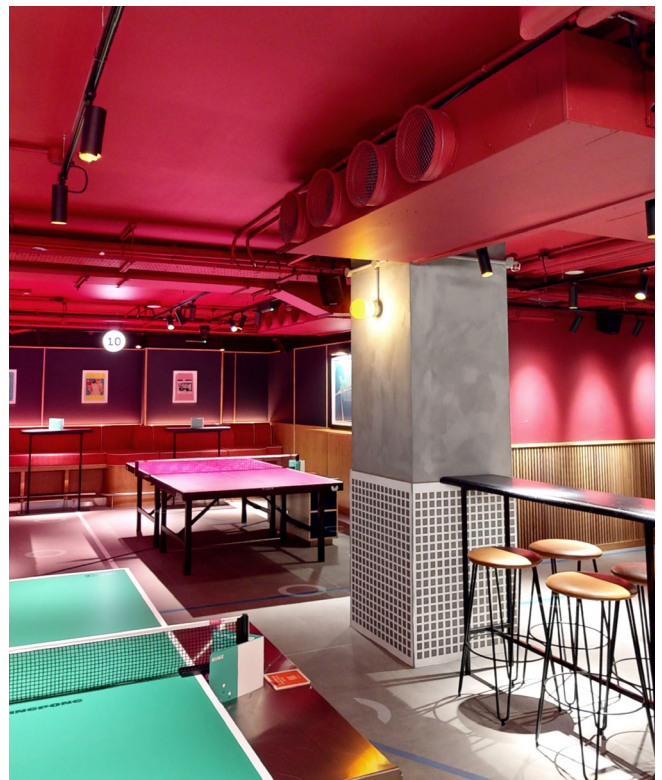

Thermoscreens, one of the UK's leading manufacturer of Air Curtains, has provided Bounce in Battersea with a bespoke climate solution for their venue.

Bounce in Battersea, a renowned entertainment venue, was grappling with temperature fluctuations in their building. The venue, always buzzing with activity, needed to ensure a consistently comfortable environment for its customers. The venue was in need of a HVAC solution that was energy-efficient, could be tailored to match their unique design aesthetics, and most importantly, would ensure there are minimal temperature fluctuations in the building.

The Challenge.

In their quest for the perfect HVAC solution, Bounce turned to Thermoscreens and Chapmans Ventilation. The team selected the Thermocoil Fan Coil system and provided Bounce with a full HVAC solution including a controls system, return air sensors, and PIC valves.

An important feature for Bounce was the ability to RAL colour match to ensure the unit blended in to the aesthetics of the room. Recognising the importance of aesthetics for Bounce, Thermoscreens offered colour options that perfectly complemented and enhanced the venue's interior design. Furthermore, our commitment to Bounce extended beyond just the installation. We provided on-site commissioning support, ensuring that the system was set up correctly. We collaborated closely with the on-site BMS system, ensuring a fully integrated climate solution that worked seamlessly with Bounce's existing infrastructure.

The Solution.

After the successful installation by Chapmans Ventilation, the transformation at Bounce was evident. The venue boasted of a consistently comfortable indoor climate due to the fan coils heating and cooling capabilities, much to the delight of both staff and customers. Aesthetically, the colour-matched Thermocoils seamlessly blended into Bounce's design, enhancing the venue's overall ambiance. Feedback from both staff and visitors was overwhelmingly positive, with many commenting on the improved indoor environment. The reliability of the Thermocoils, coupled with the comprehensive solution provided by Thermoscreens, meant that HVAC-related complaints became a thing of the past.

The Result.

Thermoscreens' installation at Bounce in Battersea stands as a testament to the power of a well-integrated, energy-efficient, and aesthetically pleasing HVAC solution. The venue's challenges were met head-on, leading to enhanced comfort, significant savings, and an elevated user experience.
